102 WORLD TITLES

2015

- 102 World Supersport**
- 101 AMA Superbike**
- 100 MXGP**
- 99 AMA National MX 250**
- 98 STK 600**
- 97 AMA Supercross Lites Western Region**

Kenan Sofuoglu (Kawasaki Puccetti Racing)
Cameron Beaubier (Monster Energy Graves Yamaha)
Romain Fevbre (Yamaha Rinaldi)
Jeremy Martin (Yamahalube Star Racing Yamaha)
Toprak Razgatlioglu (Kawasaki Puccetti Racing)
Cooper Webb (Yamalube Star Racing Yamaha)

2014

- 96 AMA Pro Superbike**
- 95 World Supersport**
- 94 AMA National MX 250**
- 93 MX Women's**

Josh Hayes (Team Monster Energy Graves Yamaha)
Michael Van Der Mark (Team Pata Honda)
Jeremy Martin (Yamalube Star Racing Yamaha)
Chiara Fontanesi (Team Fontana Racing)

2013

- 92 STK 600**
- 91 AMA Superbike**
- 90 EWC**
- 89 WMX**

Franco Morbidelli (San Carlo Team Italia)
Josh Herrin (Team Monster Energy Yamaha Graves)
Matt Phillips (Team Husqvarna Monster E. Ch Racing)
Chiara Fontanesi (Team Fontana Yamaha Racing)

2012

- 88 AMA Superbike**
- 87 Lucas Oil AMA 250 Pro Motocross**

Josh Hayes (Team Monster Energy Yamaha Graves)
Blake Baggett (Team Kawasaki Pro Circuit)

2011

- 86 Enduro Classe EJ (Junior)**
- 85 Enduro Classe E3**
- 84 Enduro Classe E1**
- 83 AMA SBK**
- 82 AMA Motocross**
- 81 E2 Enduro**
- 80 World MX3**
- 79 AMA Supercross Lites Western Region**

Jeremy Joly (Team Honda HM Zanardo)
Mika Ahola (Team Honda HM Zanardo)
Juha Salminen (Team Husqvarna Azzalin)
Josh Hayes (Yamaha Factory)
Dean Wilson (Team Kawasaki Pro Circuit)
Antoine Meo (Husqvarna)
Bill Julien (Honda)
Brock Tickle (Team Monster Energy Kawasaki Pro Circuit)

> **DISCHI / DISKS**

Il marchio **BRAKING**® è associato alla rivoluzione che l'azienda ha portato nel mondo delle moto, inventando il concetto del **WAVE**® che ha portato allo sviluppo del disco più leggero (pluri campione del mondo Serie **SK**), e poi quello del **BATFLY**® che ha creato un nuovo tipo di frenata (pluri campione del mondo serie **BATFLY**). **BRAKING**® continua a sviluppare nuove tecnologie sia nel campo dei materiali sia nel campo delle geometrie-strutture. La filosofia **BRAKING**® si basa sulla continua ricerca nel campo della frizione e della dissipazione del calore.

BRAKING® brand is associated with the revolution that the company brought to the bike disk industry by inventing first the **WAVE**® concept that enabled the development of the lightest racing disk (Multi-World-Champion **SK** Series), and next the **BATFLY**® concept that created a new "way" of braking (Multi-World-Champion **BATFLY** Series). **BRAKING**® keeps developing new technologies both in the field of materials and in the field of structure-geometry. **BRAKING**® philosophy is based on the continuous research in the field of friction and heat dissipation.

> **KIT DI MAGGIORAZIONE / OVERSIZE KITS**

Un disco più grande permette miglior modularità e performance frenante più stabile alle alte temperature. **BRAKING**® offre kit di maggiorazione scooter e stradali per l'anteriore - fuoristrada per anteriore e posteriore.

A larger disk enables better modularity and more stable brake performance at high temperatures. **BRAKING**® offers front oversize kits for scooter and onroad - front and rear oversize kits for offroad.

> **PASTIGLIE / PADS**

La combinazione di pastiglie e dischi crea il sistema di frizione che rappresenta il fulcro delle performance nel mondo dei freni. **BRAKING**® offre un'ampia gamma di mescole che insieme ai diversi dischi possono soddisfare ogni esigenza. Ogni prodotto della gamma pastiglie **BRAKING**® segue una suddivisione ben precisa per rendere la scelta del cliente semplicissima. La scelta semplice per ottenere la migliore performance, nelle condizioni di asciutto oppure bagnato, caldo oppure freddo e poterla mantenere nel tempo.

PERCHÉ BRAKING? Solo **BRAKING**® offre una gamma di oltre 10 mescole prodotte dai migliori esperti Giapponesi ed Europei, dalla tecnologia sinterizzata a quella semimetallica.

The combination of brake pads and disks makes the **FRICTION SYSTEM** that represents the core of the brake performance. **BRAKING**® offers a vast choice of different pads compounds that, in combination with the range of disks, can satisfy any client needs. Each product within the **BRAKING**® pads range is ranked over the key parameters to make clients choice as simple as possible. Performance in dry, wet, cold and hot conditions, durability and fading are the key characteristics that will easily lead your choice.

WHY BRAKING? Only **BRAKING**® offers a range of more than 10 different materials from the best Japanese and European compound specialists, ranging from full sintered to semi-metallic technologies.

> **POMPE / MASTER CYLINDERS**

BRAKING® offre una vasta gamma di pompe radiali con leve regolabili per sostituire e migliorare il tuo impianto originale. La nuova gamma di pompe **BRAKING**® è stata sviluppata seguendo la tecnologia unica e coperta da brevetto **CAM CONTROL** che permette la customizzazione della posizione della leva, ottenendo l'ideale progressione della pressione. Le leve e le pompe **BRAKING**® sono ricavate dal pieno, da alluminio forgiato e fuso.

BRAKING® offers a wide range of radial master cylinders with multi-adjustment levers to replace and up-grade your OE equipment. The new range of **BRAKING**® master cylinders has been developed after the unique and patented **CAM CONTROL** technology that enables customised lever position, thus obtaining the best pressure progression. **BRAKING**® levers and calipers are made from billet, from forged and cast aluminum.
